Product Introduction

# Model: JHF V698

**JHF**  
JHF Technology Group Co., Ltd

----- 5000mm Wide Format Industrial UV Roll-to-Roll Printer -----

# Introduction

V698 industrial printer has an ultra-wide format of 5m. Print heads can be optional with 6 colors. V698 ensures digital printing companies to make quick and efficient commercial promotion applications, including exhibition graphics, digital textiles, billboard signage etc.

# Printhead Specifications

<b>Printhead</b>	Konica Minolta (6PL or 13PL), 6*1/6*2/6*3/7*2				
<b>Head Alignment</b>	Single Row / Double Row / Three Rows				
<b>Ink Color</b>	CMYK / CMYK Lc Lm + W (optional)				
<b>Curing</b>	LED UV Curing				
<b>Printing Speed (m<sup>2</sup>/h)</b>	Pass	Resolution	One Row	Two Rows	Three Rows
	2	540*720 dpi	70m <sup>2</sup> /h	138 m <sup>2</sup> /h	208 m <sup>2</sup> /h
	3	540*1080 dpi	48m <sup>2</sup> /h	95 m <sup>2</sup> /h	142 m <sup>2</sup> /h
	4	540*1440 dpi	35m <sup>2</sup> /h	69 m <sup>2</sup> /h	102 m <sup>2</sup> /h
<b>Printhead</b>	Kyocera KJ4A				
<b>Head Alignment</b>	Single Row / Double Row				
<b>Ink Color</b>	CMYK / CMYK+W (optional)				
<b>Curing</b>	LED UV Curing				
<b>Printing Speed (m<sup>2</sup>/h)</b>	Pass	Resolution	One Row	Two Rows	
	3	300*1800 dpi	150 m <sup>2</sup> /h	230 m <sup>2</sup> /h	
	4	600*1200 dpi	110 m <sup>2</sup> /h	180 m <sup>2</sup> /h	
	6	600*1800 dpi	80 m <sup>2</sup> /h	120 m <sup>2</sup> /h	
	8	1200*1200 dpi	60 m <sup>2</sup> /h	95 m <sup>2</sup> /h	

# Technical Specifications

Interface	USB/PCIE
Carriage driven	Linear-Driven printhead carriage
Printing Width	5000mm
Printing Media	PVC flex banner, PET film , canvas, self-adhesive material and other flexible materials
Rip Software	Print Factory/ Caldera (optional)
Power	Three phase 380V, 50/60HZ, 12KW
Working Environment	20 – 30°C, 40 – 70% RH
Air Pressure	0.8-1MPA
Machine Size	8760mm x 1795mm x 1495mm
Machine Weight	3900kg

# LED Curing

Vacuum cooling platform strengthened your curing quality, prolonged the lifetime of your LED light. Two LED lights both equipped for checking the image quality of printing immediately to save time and costs. LED light curing system enables you to print on wider material including heating sensitive materials

# Unique Feeding & Take-up System

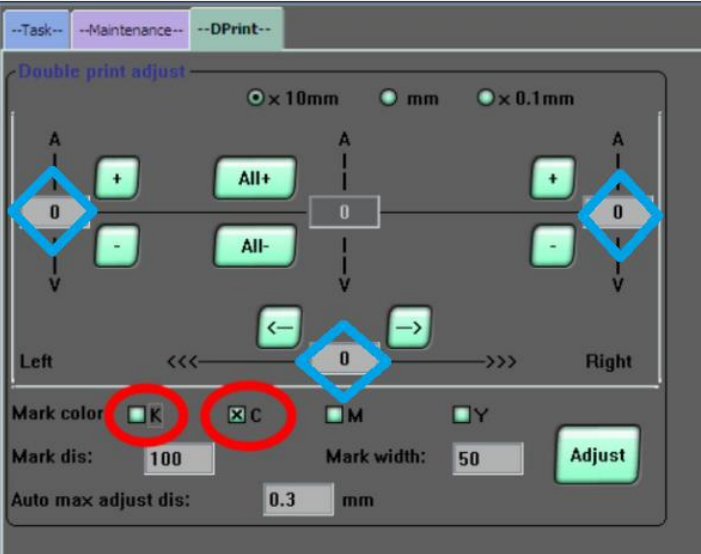

Unique constant tension system for feeding, loading and unloading. Unlike traditional pinch roller feeding system, it ensures the precision of stepping without any indentations on the fabric surface.

The roller can be adjusted accordingly to different printing fabrics, achieving best preferable tensions.

# Double-side Printing

Double-sided printing function: reverse the material after printing the front side, print the reverse side, and adjust the mark line when printing the reverse side.

Option

# Mesh kit

The mesh kit prevents the platform and vacuum of the machine from being affected by the ink spray that passes to the printer platform and the vacuum through the printing textile fabrics. The JHF RTR UV mesh kit printing feature can prevent the platform and vacuum of the machine from being affected by the ink spray that passes to the printer platform and the vacuum through the perforated mesh printing textile fabrics.

# Multi-roll kit

## Multi-roll kit:

The Multi-roll- kit is capable of handling two rolls each up to 1.6 meters wide, doubling total output. A number of smart features optimize media use.

## Key Benefit:

Multi-roll kit for increased productivity.

# Auto Height Adjustment

Automatic height adjustment function: Through the software to automatically test the height of the base plate to the material, to achieve accurate positioning.

---

# Product Features

---

# Product Features

Vacuum Table

Printing on Heat Sensitive Material

Superb White Ink Printing

LED Lamp Curing, User-friendly Design, Cost Efficiency

Anti-Collision Device

# Product Features

## Superb Ink System

Independent ink negative pressure system ensures stable ink supply to the print heads. A 5-L tank guarantees stable ink supply.

## Static Stability

Plasma electrostatic eliminator improves stability when printing on static material.

## Linear Motor

The linear motor runs with the metal grating to ensure the high-speed, stable and accurate operation.

---

# Production Applications

---

# Application

It handles a broad scope of flexible media for indoor and outdoor applications. The widest range of application capabilities—signage, wall coverings and murals, POP, exhibitions, floor graphics, window decorations, luxury vinyl tile and much more.

# Transport information

Model	V698
N.W.(kgs)	4550
G.W.(kgs)	5650
Length	8.6
Width	1.8
Hight	2.31
CBM	35.7588
CBM	$8.6*1.8*2.31M=35.76CBM$
Container size	40HQ
Bare metal size	$8.3*1.6*1.9M=25.232CBM$

The actual measured box dimensions of 40'HQ : 12.017m (length) x 2.342m (width) x 2.693m (height)  
The load capacity is approximately 28700kg
